

This hardworking piece of equipment is easy to use and built with a tough exterior that can hold up to even the most rigorous task. The positive action brake feature ensures your load stays secure in any position and its lightweight, yet rugged construction makes it perfect for the rigors of construction, rigging and mining jobs. Plus, its mechanical components are completely enclosed for protection while its baked enamel finish offers corrosion protection being even more reason why this hand winch is an ideal choice. If that wasn't enough, it also comes with a rope calibration clamp to make sure you always have quick and easy access for setup if needed. For an extra level of durability and lasting appeal, there's an available grade 304 stainless steel version as well.

Features

- Can be used to pull or lift loads
- Positive action brake can hold the load in any position
- Compact, lightweight and rugged construction
- Mechanical components enclosed for protection
- Baked enamel finish for corrosion protection
- Rope to drum fixing clamp provided
- Available in corrosion resistant grade 304 stainless steel at request
