

JACKPOD SHORING KIT

DESCRIPTION

Our shoring kit is all supplied under one part number with a storage box option making your procurement decision, so much easier.

Our Shoring Kit comes with the barrel mount base, the Jackpod davit arm and the Raptor C20 Hub retractable recovery device in a steel case with internal padding, protecting all the equipment and making storage, transport and pack up time so much easier.

The storage box comes with rated lifting anchor points and raised feet for easy moveability from the work vehicle to site. The storage box also has keyed locks ensuring extra security.

We offer a free introduction product training session to assist you with the correct set up, safe operation, inspection, maintenance, etc..
