

# MAXIBINDER

Our lightweight Maxibinder features an ergonomic design and is made from alloy steel and heat treated for maximum durability. With a 1/8 chain link length adjustment, it offers a universal lashing ideal for all your steel transport needs. Not only does it provide pre-tensioning strength but the Maxibinder also makes sure the process is quick, easy and safe to use. This system fits vehicles with load wires from 6mm up to 10mm in size, making it the perfect choice regardless of your unique business needs. Additionally, this product complies to the Australian Standards AS/NZ4344.

## Features

- Ergonomically designed
- Universal lashing, ideal for steel transport
- Safe, quick and easy to use
- Designed for a higher pre-tensioning strength
- 1/8 chain link length adjustment
