

MINING SUSPENSION CHAIN

Our Mining Suspension Chain is a robust and reliable choice for various mining applications, featuring construction from low-grade carbon steel. It excels in the mining sector, where strength and durability are paramount. With a proof load tested to twice the maximum working load, it offers peace of mind when dealing with heavy-duty materials and loads. However, it's essential to note that this chain is not designed for industrial lifting applications.

Features

- Manufactured from low-grade carbon steel
- Proof load tested to twice the maximum working load
- NOT suitable for industrial lifting purposes
- Sold per metre or in pail packs
- Test certificates available upon request

PRODUCT SPECIFICATIONS

Part Number	Chain Size (mm)	Link Type	Length/100 kg (m)	WLL (Tonne)	Dimensions in (mm)
