

SHORT LINK GALVANISED MILD STEEL CHAIN

Short Link Galvanised Mild Steel Chain is made from low grade carbon steel, so you can trust it for durability and reliability. The hot-dip galvanised finish ensures that it really stands out, while the short link formation makes it easy to attach to posts, walls, and other structures. If you need different sizes, please contact us and we can accommodate your needs.

Features

- Manufactured from low grade carbon steel
 - Hot-dip galvanised finish
